SKILLS

SQL (Advanced) | Excel (Advanced) | Power BI (DAX) | Python (Basics) | Jupyter Notebook | VS Code | Data Modeling | Data Visualization | Dashboard Design | Statistical Analysis | Variance Analysis | KPI Development | Reporting Automation | Data Storytelling | Process Analysis | Stakeholder Management | Project Management | Gen AI Tools

WORK EXPERIENCE

Tax Analyst Intern - Devyani International Ltd.

Gurugram (Jun 2025 - Jul 2025)

- Processed **150+** deferred tax entries, analyzing ₹200+ Cr tax flows, improving compliance accuracy by **18%** while building **Power BI** dashboards tracking indirect tax trends across **500+** locations and designing Excel models, **reducing** report generation time by **40%**, enabling tax exposure identification **2 weeks earlier**, and accelerating audit readiness

Management Trainee - Sona Comstar

Gurugram (Jun 2022 - Jul 2022)

- Independently managed and analysed **100+** employee training sessions using **Advanced Excel** (pivot tables, dynamic dashboards, VLOOKUP), optimising scheduling workflows, evaluating post-session feedback, and delivering actionable insights that **reduced program gaps by 25%** and improved training effectiveness scores consistently.

PROJECTS

Food Delivery Operational & Revenue Analysis | SQL, Power BI

- Leveraged advanced SQL (JOINS, CTEs, Window Functions, RANK) across **20+** business cases analyzing multi-table food delivery dataset to **identify top 3 revenue drivers** contributing **45% of platform revenue**, performed customer segmentation and cancellation analysis recommending operational changes **reducing cancellations by 12%**, and created **KPI dashboards** with trend analysis, enabling data-driven decision-making

Fraud Intelligence & Risk Monitoring System | Excel, SQL, Power BI

- Developed fraud intelligence analytics system processing **100K+** transactions, engineered Fraud Severity Index model discovering low-risk classifications contained **40%+ highest fraud exposure**, delivered **8+ strategic recommendations**, enabling **35%+ improvement in fraud detection** prioritization and supporting executive decision-making

Data Modeling & Visualization | SQL, Power BI

- Queried 50,000+ records using SQL (JOINS, GROUP BY, subqueries, window functions) to calculate **10+ performance metrics** across business dimensions and engineered interactive **Power BI dashboard** with dynamic DAX measures and drill-down capabilities for real-time monitoring by **5+ departments**, while designing normalized relational data model **reducing query execution time by 35%**

EDUCATION

Department of Business Economics, University of Delhi

(Aug 2024 - May 2026)

Master's in Business Administration MBA - Business Economics

- *Dual Major: Analytics and Finance*
- *Relevant Coursework: Statistics, Econometrics, Portfolio Management*

NIMS University, Jaipur

(Aug 2020 - May 2023)

Bachelor in Business Administration BBA, Cumulative GPA: **8.67/10**

- *Relevant Coursework: Project Management, Risk Management Foundation, Research Methodology*

LEADERSHIP

Organizer & Licensee | TEDxDFBEDU

Delhi (Sep 2024 - May 2026)

Senior Coordinator | Corporate & Public Relations Committee, DBE

Delhi (Sep 2024 - May 2026)

CERTIFICATIONS

- **Python Data Analysis by FreeCodeCamp** - Data cleaning, EDA, statistical modeling, predictive analytics
- **Advanced Excel & SQL Workshop by Havish M. Consulting** - Data-driven frameworks and advanced reporting
- **Advanced Data Analytics Certification by Udemy** - SQL, Python, Data visualization, BI tools
