SUMMARY

MBA graduate with a specialization in Analytics & Finance and practical experience in data analytics, business intelligence, and financial analysis. Proficient in SQL, Power BI (DAX), Advanced Excel, and Python. Proven track record of building dashboards, automating reporting pipelines, and converting complex datasets into strategic business insight.

SKILLS

Analytics & BI	SQL (Advanced) · Power BI · Microsoft Excel (Advanced)
Programming	Python (Basics) · Jupyter Notebook · HTML · CSS · GitHub
Core Skills	Data Modeling · Statistical Analysis · KPI Development · Dashboard Design · Reporting Automation
Business	Stakeholder Management · Project Management · Business Analysis · Generative AI Tools · PowerPoint

EXPERIENCE

- Tax Analyst Intern - Devyani International Ltd.** • Gurugram Jun 2025 – Aug 2025
 - Processed **150+ deferred tax entries**, analyzing **₹200+ Cr tax flows**, improving compliance accuracy by 18% while building Power BI dashboards tracking **indirect tax trends across 500+ locations** and designing Excel models, **reducing report generation time by 40%**, enabling tax exposure identification 2 weeks earlier, and accelerating audit readiness
- Management Trainee - Sona Comstar** • Gurugram Jun 2022 – Jul 2022
 - Independently managed and analyzed 100+ employee training sessions using **Advanced Excel (pivot tables, dynamic dashboards, VLOOKUP)**, optimising scheduling workflows, evaluating post-session feedback, and delivering actionable insights that **reduced program gaps by 15%** and improved training effectiveness scores consistently.

PROJECTS

- Fraud Intelligence & Risk Monitoring System** | SQL · Excel · Power BI
 - Developed fraud intelligence analytics system processing **100K+ transactions**, engineered Fraud Severity Index model discovering low-risk classifications contained **40%+ highest fraud exposure**, **delivered 8+ strategic recommendations**, enabling **35%+ improvement in fraud detection** prioritization and supporting executive decision-making
- Food Delivery Operational & Revenue Analysis** | SQL · Power BI
 - Leveraged **advanced SQL (JOINS, CTEs, Window Functions, RANK)** across **20+ business cases** analyzing multi-table food delivery dataset to **identify top 3 revenue drivers contributing 45% of platform revenue**, performed customer segmentation and cancellation analysis recommending operational changes **reducing cancellations by 12%**, and created KPI dashboards with trend analysis, enabling data-driven decision-making
- Sales Performance & Data Modeling Dashboard** | SQL · Power BI
 - Queried **50,000+ records** using SQL (JOINS, GROUP BY, subqueries, window functions) to calculate **10+ performance metrics** across business dimensions and engineered interactive **Power BI dashboards** with dynamic DAX measures and drill-down capabilities for real-time monitoring by **5+ departments**, while designing normalized relational data model **reducing query execution time by 35%**

EDUCATION

MBA - Business Economics (Dual Major: Analytics & Finance) · DBE, University of Delhi	2024 – 2026
BBA - (Major: Business Management) · Nims University	2020 – 2023

CERTIFICATIONS

SQL Advanced - HackerRank	Advanced Data Analytics - Udemy	Python Data Analysis - FreeCodeCamp
Integrated Credit Risk - Peaks2Tails	Advanced Excel & SQL - Havish M. Consulting	

LEADERSHIP & IMPACT

- Organizer & Licensee, TEDxDFBEDU (2024–2026):** Led a 34-member team, managed a ₹4.5L budget, curated 11- speaker lineup - grew event social media reach from 174K to 700K impressions.
- Senior Coordinator, Corporate & PR Committee, DBE Delhi:** Managed 25+ industry stakeholders; LinkedIn outreach campaign escalated corporate response rate by 35%.
